## Your Donor Advised Fund

Make an Impact with Your Charitable Dollars

### What Is a Donor Advised Fund?

A Donor Advised Fund (DAF) is an account you establish with an administrator such as a nonprofit, bank, investment firm or other financial services provider. Some institutions have minimum amounts and differing distribution requirements. However, all feature one benefit: You give to the fund when you want, then you recommend how and when the funds are used.

With a DAF, you can only advise your account administrator about distributing funds. In most cases, your administrator will follow your advice. You can direct a distribution to our organization easily. You have already committed the funds inside your DAF to charitable causes, now make a difference today.

### An Investment Account Like No Other

With your DAF, you can put money in when it fits in your tax plan and distribute money based on your suggestions to the administrator. This gives you the control and freedom to add or make grants when you choose.

### Benefits of a Donor Advised Fund

- Control the timing of your donations
- Streamline your charitable giving
- Pass ownership to children or friends to create a legacy

### Other Considerations

- Efficient and easy to advise charitable giving
- Your account gives, not you, so your identity is revealed only if you want
- Your account can accept stock for capital gains benefits
- You can only advise the administrator, not direct the distributions
